

SHIKHIL RAJ PV

Odoo Techno-Functional Consultant | Software Engineer

Calicut, India | +91 8156922667 | shikhilrajpv@gmail.com | github.com/shikhil-raj-pv | linkedin.com/in/shikhil-raj-p-v-a14a34213

PROFESSIONAL SUMMARY

Odoo Techno-Functional Consultant with 2.9 years of experience across ERP implementation, custom module development, and business process automation. Skilled in configuring workflows, building REST API integrations with third-party systems, and migrating modules across Odoo versions (14 - 19). Experienced in translating client requirements into scalable ERP solutions and delivering end-to-end implementations, from analysis through deployment and user training. Provides responsive functional and technical support, coordinating with development teams to resolve production issues. Strong working knowledge of Python, PostgreSQL, XML/QWeb, and OWL, applied to improving operational efficiency for clients.

CORE COMPETENCIES

- Odoo Development (v15–19)
- ERP Customization & Configuration
- REST API Integrations
- Business Workflow Design
- Python & PostgreSQL
- XML, QWeb & OWL
- Client Support & Issue Resolution
- Module Migration & Upgrades

PROFESSIONAL EXPERIENCE

Odoo Techno-Functional Consultant: Cybrosys Technologies

Jan 2024 – Present

Kinfra Kakkanchery, Malappuram

- Developed and customized 12+ Odoo ERP modules across Sales, Inventory, CRM, and Accounting for 10 + client implementations, aligning system workflows with client-specific business processes
- Configured and automated end-to-end workflows across 4 core Odoo modules (Sales, Inventory, CRM, Accounting), reducing manual process steps and improving turnaround time for client operations by [X]%
- Built and maintained 5+ REST API integrations with third-party and enterprise systems (including SAP, payment gateways, and government portals), enabling real-time data synchronization and eliminating manual data entry.
- Migrated and upgraded custom modules across 5 Odoo versions (15 to 19) for 4+ clients, maintaining 100% data integrity with zero critical downtime incidents.
- Handled 10+ monthly support requests from Odoo Apps Store customers, diagnosing functional and technical issues in published Odoo modules and coordinating with development teams to deliver timely resolutions.

Python Full Stack Developer: Futuro IT Solutions Limited

Jan 2023 – Sep 2023

Kochi, Kerala

- Completed full-stack development training and delivered project work using Python, Django, and Django REST Framework.

Associate Merchandiser: Malabar Group

Dec 2021 – Sep 2023

Kozhikode, Kerala

- Supported OMS and planogram operations, coordinated ticket resolution, and assisted with software testing and merchandising process audits.

EDUCATION

BCA — College of Applied Science (IHRD), Kozhikode | 2018 – 2021

+2 (Higher Secondary) — Technical Higher Secondary (IHRD), Kozhikode | 2016 – 2018

Odoo SAP Integration

Integrated Odoo 17 with SAP using REST APIs to automate sales-order synchronization, supporting the processing of 100+ orders per day and reducing manual data transfer.

Technologies: Odoo 17 | Python | REST API | SAP

Survey Checklist System

Developed custom survey checklist workflows, API integrations, and reporting features to streamline and manage network communication business processes.

Technologies: Odoo 18 | Python | XML/QWeb | PostgreSQL

Pagos Payment Integration

Developed a custom payment workflow and API integration for automated payment processing and reconciliation using data received from an external system.

Technologies: Odoo | Python | XML/QWeb | PostgreSQL

Client Outsourcing

Developed and customized Odoo modules and models aligned with clients' customized business workflows.

Technologies: Odoo 17, 18, 19 | Python | XML/QWeb | PostgreSQL | OWL

Third Party Integration

Integrated MyAADE to enhance client operational processes and ensure seamless cross-platform data flow.

Technologies: Odoo 17 | Python | XML/QWeb | PostgreSQL

Transportation Management

Improved existing transportation workflows by resolving operational issues, developing custom inspection models and reports, and integrating a third-party digital-signature solution to streamline inspection and approval processes.

Technologies: Odoo 16 | Python | XML/QWeb | PostgreSQL | OWL

Workshop Management

Developed and customized Odoo modules to manage and optimize workshop operations and processes.

Technologies: Odoo 18 | Python | XML/QWeb | PostgreSQL | OWL

Odoo Implementation and Training

Implemented ERP workflows across Sales, Purchase, Inventory, Accounting, POS, and Manufacturing, with end-user training.

Technologies: Odoo 19 | Python | XML/QWeb | PostgreSQL

Migration of Custom Modules

Migrated 30+ custom modules across Odoo 14–19, updating deprecated APIs, views, and database structures while validating business workflows through functional testing.

Technologies: Odoo 15, 16, 17, 18, 19 | Python | XML/QWeb | PostgreSQL | OWL
