PROFESSIONAL SUMMARY

Odoo Techno-Functional Consultant and Software Engineer with experience in ERP implementation, customization, and end-to-end business process automation using Odoo. Skilled in designing and developing custom modules, configuring workflows, integrating REST APIs and third-party systems, and performing module migrations and upgrades across Odoo versions. Experienced in gathering client requirements, translating business needs into scalable ERP solutions, and delivering successful Odoo implementations from analysis through deployment and user training. Provide professional email-based functional and technical support, including issue analysis, clear client communication, coordination with development teams, and timely resolution of production and customization-related concerns. Strong expertise in PostgreSQL, Python, XML/QWeb, and optimizing ERP solutions to improve operational efficiency and business performance.

CORE COMPETENCIES

- Odoo Development (15-19)
- ERP Customization
- Python & PostgreSQL
- XML, QWeb & OWL
- REST API Integrations
- Client Support & Resolution
- Business Workflow Design
- Module Migration
- JavaScript, Git & GitHub

PROFESSIONAL EXPERIENCE

BCA | 2018 - 2021

Technical Higher Secondary (IHRD), Kozhikode

+2 | 2016 - 2018

SHIKHIL RAJ PV

Software Engineer | Odoo Techno Functional Consultant

Selected Odoo, ERP & Integration Projects

RESUME | 2 OF 2

SELECTED PROJECTS

Odoo SAP Integration

Integrated Odoo with SAP using REST APIs for automated sales-order synchronization.

Technologies: Odoo 17 | Python | REST API | SAP

Survey Checklist System

Developed a custom workflow, API, and reporting features for survey checklists.

Technologies: Odoo 18 | Python | XML/QWeb | PostgreSQL

Pagos Payment Integration

Developed a custom workflow, API, and reporting features for survey checklists.

Technologies: Odoo | Python | XML/QWeb | PostgreSQL

Client Outsourcing

Developed and customized Odoo modules and models aligned with clients customized business workflows.

Technologies: Odoo 17, 18, 19 | Python | XML/QWeb | PostgreSQL | OWL

Third Party Integration

Integrated MyAADE to enhance client operational processes and ensure seamless cross-platform data flow.

Technologies: Odoo 17 | Python | XML/QWeb | PostgreSQL

Transportation Management

Developed custom inspection models and integrated a third-party digital-signature solution to streamline operations.

Technologies: Odoo 16 | Python | XML/QWeb | PostgreSQL | OWL

Workshop Management

Developed and customized Odoo modules to manage and optimize workshop operations and processes.

Technologies: Odoo 18 | Python | XML/QWeb | PostgreSQL | OWL

Odoo Implementation and Training

Implemented ERP workflows across Sales, Purchase, Inventory, CRM, Accounting, POS, and Manufacturing, with end-user training.

Technologies: Odoo 19 | Python | XML/QWeb | PostgreSQL

Migration of Custom Modules

Migrated custom modules from Odoo 15 to 19, updating code, views, database structures, and deprecated features with testing.

Technologies: Odoo 15, 16, 17, 18, 19 | Python | XML/QWeb | PostgreSQL | OWL
